

Accessibility Statement

Our commitment

At **XJ Media**, we're dedicated to ensuring our website is accessible to everyone, including people with disabilities. We want all visitors to be able to easily navigate, understand, and interact with our site — regardless of technology or ability. We're continually working to improve the user experience for everyone and to apply the relevant accessibility standards.

Accessibility standards

Our goal is to comply with the **Web Content Accessibility Guidelines (WCAG) 2.1**, Level **AA**. These guidelines explain how to make web content more accessible and user-friendly for people with a wide range of disabilities, including visual, auditory, motor, and cognitive impairments.

How we make our website accessible

We've designed the **XJ Media** website with accessibility in mind by:

- Using clear, consistent page layouts and navigation
- Providing alternative text for images
- Ensuring good colour contrast and legible font sizes
- Using descriptive links and headings
- Making all functionality available via keyboard
- Testing regularly across devices and assistive technologies

Our site is built to be compatible with modern browsers and assistive tools such as screen readers, voice recognition software, and text magnifiers.

Ongoing improvements

While we strive to meet accessibility standards in full, we know some areas may still need improvement. We're actively reviewing and enhancing our website to remove barriers wherever possible.

If you encounter any issues or have suggestions for improvement, we'd love to hear from you.
